### What is a gripper?

A brilliant pneumatic gripper, especially designed for grabbing objects in sewers or ventilation ducts.

#### Advantages

- Bend capable up to 90° from Ø 4
- Air-powered operation range up to 82 ft (standard), longer distances are possible
- Fast and simple maintenance
- Cost-saving because no detection is needed
- Assembly of a camera is possible (optional)
- Easy handling by use of push bars made of polyethylene. Either taken from Cutter MWR 10/20 or elsewhere
- Connections: Ridgid coupling

#### Technical data

Length	approx. 9.45 in
Diameter	approx. 2.16 in
Weight	approx. 10.58 lbs
